# BREAKTHROUGH SCIENCE *that* REMAINS UNIQUE TO US

Discover our ground-breaking science and how Aurelia Probiotic Skincare works within the skin.

**ACTIVATES**

REPAIR

**REDUCES**

DAMAGE

Aurelia's Probiotic Ingredients continuously **PROTECT**, **RESTORE** and **BALANCE** the skin from within. They calm the natural immune triggers in your skin which can be overstimulated by pollution and stress and they reduce the damage these immune triggers cause to collagen, elastin and healthy cells.

Aurelia's Probiotic Ingredients activate the skin's natural ability to repair itself and boost the natural process of restoring collagen, elastin and healthy cells.

*Did you  
know?*

Equilibrium is maintained for balanced glowing skin from within.

Aurelia Probiotic Skincare products don't contain live bacteria or work on the skin's surface microbiome - our ground-breaking probiotics work in a more advanced way.

## CLAIRE'S STORY

Claire Vero, Aurelia's founder, spent nearly 10 years at the forefront of pharmaceutical innovation, having worked for one of the world's largest global pharmaceutical companies as a Director within the Global Dermatology Centre of Excellence. Once she discovered the difference probiotics could make to the skin she was empowered to create skincare with remarkable results; products that harnessed the power of probiotics, used in a new way. To this day Aurelia Probiotic Skincare's innovative science remains unique.
